- -practiced peer reviewing other peers code in project based submissions.
- - created over 12 projects to demonstrate knowledge of different Front end technologies.
- -Link to official accredited certification: <https://www.credential.net/iifwio9v>

## Software Development

Feb 2015 - Sept 2016

ITT Technical Institute -online

- -Studied different aspects of software engineering and development such as project scope and different methodologies of developing software.
- -Some of these included the waterfall approach as well as scrum and agile systems.
- -Learned debugging strategies and meeting the requirements of the client so that the scope is clear.
- -Coded in multiple programming languages and IDE's.

# Work Experience

---

## Junior Front End Web Developer/ Designer

May 2017 - Present

Progressive Dental Marketing

- -Design and build websites for doctors using custom made Wordpress themes.
- - Use Git , Wordpress , JavaScript , HTML, CSS and Sass as well as PHP on a daily basis to modify Wordpress themes as well as incorporate certain bug fixes.
- -Use the adobe creative suite, mainly photoshop and illustrator to insert stock photography as well as create assets and designs for the websites. Use illustrator to alter logos depending on the size and color of the original logo.
- - Under leadership I make edits and to my websites as well as work on any tickets that come through to any other doctors websites through the ticketing system.

- - Work in an agile/scrum environment complete. Project management uses trello.
- - Help other junior developers solve problems they have that I know a fix for.
- - Won a marketing competition making a website based on a campaign that my assigned team and I had worked on.

## **Web Developer**

March 2015- present

Owner and operator

- Web developer for my personal portfolio website. Owner and operator of two portfolio websites over two years. Designed and coded both websites using HTML CSS and JavaScript as well as bootstrap4. Used ftp protocol to transfer files to my live sites. Implemented different features for the site and provide continuous maintenance.
